The screenshot displays the Microsoft Azure portal interface for configuring the Google Cloud / G Suite Connector. The top navigation bar includes the Microsoft Azure logo, a search bar, and user information for 'admin@ms-weer.at'. The breadcrumb trail shows 'Home > Enterprise applications | All applications > Google Cloud / G Suite Connector by Microsoft | Overview'. A left-hand navigation pane lists various management options such as 'Overview', 'Deployment Plan', 'Diagnose and solve problems', 'Properties', 'Owners', 'Roles and administrators', 'Users and groups', 'Single sign-on', 'Provisioning', 'Self-service', 'Custom security attributes (preview)', 'Conditional Access', and 'Permissions'. The main content area is titled 'Properties' and contains three input fields: 'Name' (Google Cloud / G Suite Con...), 'Application ID' (e78c2cec-3ea1-441d-9393-...), and 'Object ID' (54975fff-a9de-49ce-8750-9...). Below this is a 'Getting Started' section with five numbered steps: 1. Assign users and groups, 2. Set up single sign on, 3. Provision User Accounts, 4. Conditional Access, and 5. Self service. Each step includes a brief description and a 'Get started' link.
